**EACOME** Eacome Video Collaboration System
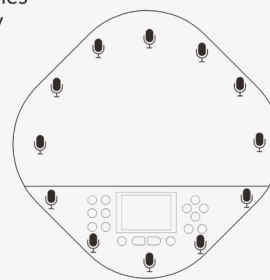

SV3600

SV3600

EACOME SV3600, our video conferencing solution for mid to large-sized meeting rooms, delivers high quality HD video and crystal clear audio, allowing any meeting place to be a video collaboration space. With advanced features like acoustic echo cancellation, noise reduction technology, and intuitive controls, it's easier than ever to include everyone in the conversation. The SV3600's audio system has 12 high sensitivity microphone arrays. With high-order beamforming technology to create strong sensitivity and narrow directionality for sounds, the SV3600 can offer an ultra-high voice qulity ,which is like as face to face talking during remote communication.Meanwhile,the SV3600 digital speaker unit is so powerful and transparent.

Eacome SV3600 System Features

PLUG-AND-PLAY SIMPLICITY

USB plug-and-play connectivity makes the SV3600 a breeze to deploy and use. Simply connect GROUP the conference room computer or your laptop through USB, and you're good to go. Use SV3600 audio system with any video conferencing software, including those you already use.

12 BEAMFORMING MICROPHONES, BROADCAST LEVEL AUDIO

The SV3600 audio system has 12 high sensitivity microphone arrays. With high-order beamforming technology to create strong sensitivity and narrow directionality for sounds. the SV3600 can offer a ultra-high voice qulity ,which is like as face to face talking during remote communication.Meanwhile,the SV3600 digital speaker unit is so much powerful and transparent than ever. In terms of communication,with the 48K digital bandwidth, full-duplex echo cancellation,dynamic noise reduction, smart microphone mixing and ultra-long-distance automatic gain control and other international advanced technologies, the SV3600 presents a relaxing and immersive experience to the participants.

OPTIONS GIVE YOU VERSATILITY, CABLING MADE EASY

Customize the setup to match the layout and size of your room. Mount the camera on a table, tripod or wall. The SV3600 compact Hub simplifies cabling and makes it easy to run cables under tables and through conduit. Integrated data and power means that the camera and audio system each connect with a single cable. The included 5m / 16 ft cables give you lots of placement options, while optional extended cables offer double reach.

CONVENIENT CONTROLS, COLOUR LCD DISPLAY

The SV3600 provides a remote control,and it features an LCD status screen to mute audio, adjust volume, move the camera , Bluetooth, and 2 camera presets for pan, tilt, and zoom settings.

HIGH-DEFINITION VIDEO

Bring meetings into focus with the SV3600 premium lens, 12x lossless zoom, and HD 1080p/30 performance. Perfectly frame presenters and whiteboards with pan/tilt control, and zoom in for detail and clarity.The SV3600'S 72.5°~6.9° diagonal field-of-view provides ideal coverage for medium and large conference rooms, with motorized pan and tilt for wall-to-wall, floor-to-ceiling coverage.

BLUETOOTH,VIDEO+AUDIO MULTI-PARTY CONFERCENCING

You can even pair the SV3600 with your audio system or tablet to enjoy outstanding audio clarity and ample volume with mobile applications and conference calls. Meanwhile,the video+audio multi-party conferencing can be achieved by joining a conference call via a bluetooth call during a video conference.

Eacome SV3600 Specifications

CAMERA

HD 1080p video quality at 30 frames-per- second
Brings lifelike full HD video conference calls

72.5° ~6.9° Field of view with mechanical

±170° pan and -30° ~+90° tilt
The generously wide field of view and silky smooth pan and tilt controls enhance collaboration by making it easy to see everyone in the room.

12x Lossless HD zoom
Zero in on close-ups of objects and whiteboard content with outstanding detail and clarity.

High-precision lens automatically focuses on people and objects to deliver razor-sharp resolution wherever the lens is pointed.

Far-end camera control
Controlled PTZ by IR remote controller or arrow keys on the audio system

3 camera presets
Plug-and-play camera setup

AUDIO SYSTEM

Full-duplex audio system
Spacious audio
Participants can converse within a 8m/20-ft (Expansion mics support 10m/26.24-ft)diameter around the audio system and be heard so clearly by remote participants that it seems like conversations are happening in the same room.

Beamforming technology with 12 built-in omni-directional mics
Conversations sound realistic and natural by minimizing sound reflections (reverb) and distracting audio artifacts.

Acoustic echo cancellation
Advanced acoustic engineering reduces echo,making calls sound more natural.

Noise reduction technology
Ambient noises and other distracting tones are suppressed to support comfortable natural-sounding conversation on both ends of the call. High bandwidth HD audio.

Plug-and-play audio system setup

HUB

Compatible with Mac® and PC
