AV-to-USB

LIVE

Functions & Features

AV-to-USB LIVE captures high quality video and audio from TV, DVD, camera and other similar devices through USB. Plug and Play, no need to install driver and external power. User can copy and edit the captured files on the PC, it can also work as home security camera if a camera is connected.

AV-to-USB LIVE resolves your trouble with piles of old VHS tapes. You can turn your beloved old movies into digital formats and easily refine the quality of videos like a professional. Through the USB interface, you can connect your DV, V8, VHS, and DVD player to capture and edit all your favorite shows easily to your PC and MAC.
