

STEINWAY LYGNDORF

Steinway & Sons MODEL O

This full-range loudspeaker is designed to provide the legendary Steinway & Sons performance in a small package without the need for a separate woofer. The Steinway & Sons Model O functions impeccably as a surround speaker or a simple stereo setup, and its small footprint makes it a perfect alternative to wall mounted speakers.

A STUNNING PERFORMANCE

The tweeter used in the Model O is the uniquely engineered Air Motion Transformer used in all Steinway Lyngdorf speakers. With a moving surface four times bigger than a normal dome tweeter, the resulting resolution and stress-free movements ensure the correct and detailed reproduction of all overtones of the instruments playing.

The midrange driver is a specially designed 6" aluminum driver with a large neodymium magnet. Originally designed for the Steinway & Sons Model S series, this driver is extremely efficient yet compact in size making it the ideal solution for maximizing performance while minimizing cabinet size. This powerful midrange driver is paired with an 8" slave unit to provide full-range reproduction and impactful bass.

FLEXIBILITY IN INSTALLATION

The Model O's small footprint allows for the speaker to be positioned quite freely in the room, but for optimal bass reproduction, we recommend positioning it up against a wall. If it plays together with woofers, it is not important that the Model O is positioned against the wall.

- Functions impeccably as a surround speaker
- A perfect alternative to wall mounted speakers
- Correct reproduction of all overtones
- No need for a separate woofer
- Can be positioned quite freely in the room

SPECIFICATIONS

Description:	2-way floor speaker with slave unit
Tweeter:	Air Motion Transformer
Midrange driver:	Size: 6", cone material: aluminum, die cast basket
Slave unit:	Size: 8", cone material: aluminum
Amplification channels:	1
Enclosure:	MDF and aluminum
Frequency response:	35 to 22,000 Hz (-3dB)
Maximum SLP @ 1 meter:	105 dB (preliminary)
Crossover:	2500 Hz
Connections:	SpeakON
Placement options:	Free standing / against wall floor speaker
Dimensions (W x H x D):	36 x 115 x 14 cm / 14.2 x 43.3 x 5.5 inches
Weight:	37 kg / 81.6 lbs
Finish:	Black piano finish, custom finishes available
