All the Zappiti products are designed to provide our end-user customers with convenient and intuitive access to their entire movie library collection, in glorious 4K, High-Definition resolution. Your movies files are delivered to your private cinema with the highest video quality available and pure, high fidelity, lossless reproductions of the original motion picture soundtracks. The Zappiti Signature offers the best performance possible for high-end home entertainment and hi-fidelity audio.

Our award-winning user interface Zappiti Video provides the best AI available on the market to organize your movie library. Zappiti Video offers advanced features that allow you to play trailers, create custom categories or groups of movies, browse while listening the original soundtracks of your movies in the background, customize the homepage and buttons, add special top banners such as director's cut or unrated editions, access to the online additional contents, or add your personal movie covers, background, or soundtrack. In addition, the parental control code protects your kids from adult movies.

The Zappiti Signature supports the majority of digital audio and video formats, including the most modern 4K HDR standards such as Dolby Vision and HDR10+, almost all recent video file formats, full BD/UHD Menus, HEVC video codec with one billion colors (10-Bit color encoding), VP-9, 3D video standards with 3D subtitles, high resolution audio files such as DSD, FLAC, ALAC, or MQA up to 352 kHz, and features wide solid chassis, dual HDMI output, 4K 60p, Dolby Atmos and DTS:X, for the best possible home theater experience.
