PROJECTOR LIFT SI-H 500

Side view closed 0 MIN 705 MAX 5705 350 90

The **PROJECTOR LIFT SI-H 500** lift is equipped with heavy-duty but silent motor which assures a fast and stable up-down movement of the projector. Furthermore, the motor is provided with an RF remote control and offers the possibility to set three motor limit stops: an upper stop limit, an intermediate one and a down one.

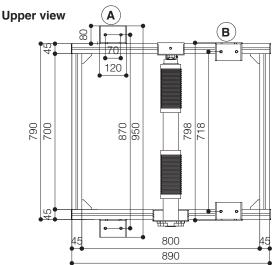

The intermediate stop can be set at the desired height for projection mode, whereas the down one can be adjusted up to 500 cm. stroke to be used as service mode position.

Also a **safety device** is built-in in order to offer maximum security in case of any failure of the mechanism.

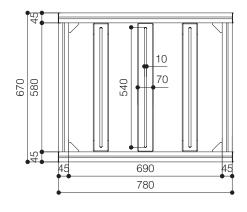

The projector anchoring frame movement is controlled by two strong steel cables that are certified for a maximum load of 350 kg. each.

Optional: Smartbox RF (details p. 62)

- You can see the brackets mounted turned OUTSIDE.
- You can see the brackets mounted turned (B) INSIDE.
