

# PPL 2500 Projector lift system

Article number (SKU) 7025000  
 Colour Black

## Key benefits

- Cable management
- Theft prevention
- Easy to install

The PPL 2500 projector lift system is the perfect solution for the integration of a large projector at a ceiling for example in an auditorium or conference hall.

The lift is equipped with a heavy-duty but silent motor which assures a fast and stable up-down movement of the projector. Furthermore, the motor is provided with an RF remote controller and offers the possibility to set three motor limit stops: an upper, intermediate and a down stop. The intermediate stop can be set at the desired height for projection mode, whereas the down one can be adjusted up to 500 cm stroke and can be used as a service mode position.

The maximum weight capacity of the projector lift is 70 kg.

A safety device is built-in in order to offer maximum security in case of an unlikely failure of the mechanism. The movement of the projector mounting frame is controlled by two strong steel cables.

TÜV certification pending.

## Specifications

### Product specifications

Product type number	PPL 2500
Article number (SKU)	7025000
Colour	Black
EAN single box	8712285338465
TÜV certified	No
Guarantee	2 years
Guarantee on Electrical Parts	2 years
Max. weight load (kg)	70

### Features

Professional features    Motorized

### Technical specifications and dimensions

Average power consumption (W)	265
Voltage (V)	230V, 50Hz
Min. distance to ceiling (mm)	n/a
Max. distance to ceiling (mm)	5705
	705
Length of projector lift (mm)	890
Width of projector lift (mm)	790
