

SV15 Series

Smart and Professional Speakerphone

SV15B(Bluetooth)

SV15W (wireless)

SV15 is a professional HD USB speakerphone with smart outline. It's suitable for a variety of environment especially for small and medium conference room. It can also connect to other terminal devices via wireless or Bluetooth, which will simplify conference room cabling. Easy connection achieves efficient video and web conferencing. It's easy to hear and be heard for each attendant from remote communication. SV15 is a professional speakerphone easier to deploy which greatly improve the meeting efficiency.

SV15 has perfect extension capabilities. When in a demand of larger conference room or for group discussions, it just needs to add another SV15 unit. The extension unit has a speaker and microphones system. Two SV15 units simultaneously working in same space, double the cover space of meeting room and the number of participants. The sound of the main unit and the extension unit are completely synchronized, and they can control each other at the same time. Its coverage could reach 60 m² when two SV15 working together.

SV15 is powered by Eacome international advanced HD-voice processing technology which providing 48K sample rate and 500ms echo length cancellation. These excellent DSP technology make the conversation reliable, natural and enjoyable during remote conferencing. Built in 4 internal HD microphones best gather cover 4m, and the maximum can support 5~8m. Speaker volume up to 85dB. Best for conference room within 25 m².

SV15 series include SV15U(USB), SV15W(2.4G wireless) and SV15B(Bluetooth). It's worth noting that SV15B supports wireless connection with PC or other devices via a Bluetooth adapter.

With delicate and fashionable outline, SV15 series have simple LED indicators which clear show every status. Built-in large-capacity 5200ml battery makes speakerphone have long talk time. (10h working time at maximum volume and 90 days standby time)

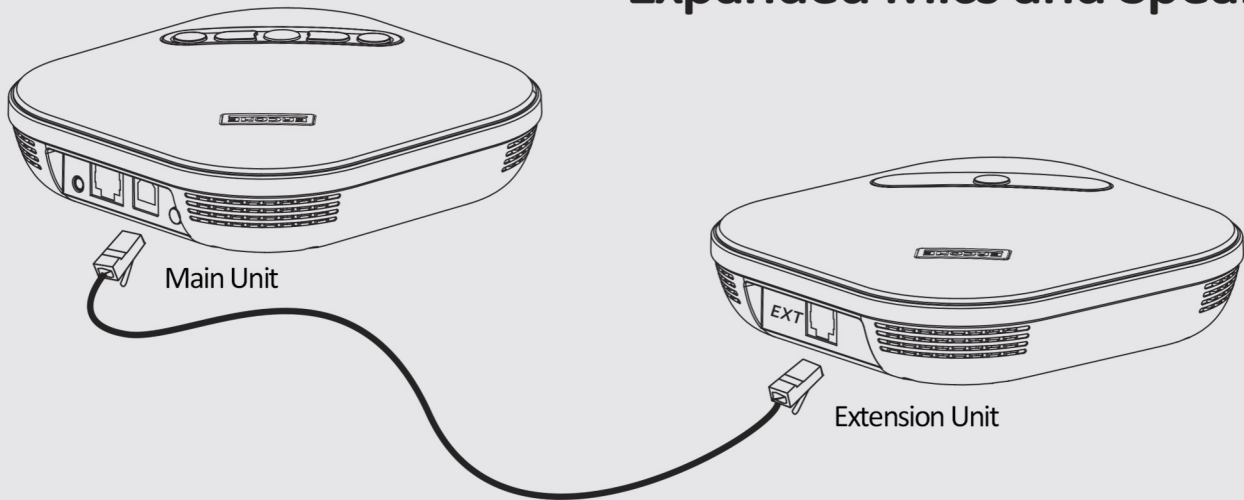

Conference System with Extension Unit

Conference System with Extension Unit

Expanded Mics and Speaker

Features

- 48K Wide-band acoustic echo cancellation with HD-voice , dynamic noise suppression, automatic gain control, and intelligent microphone mixing
- Best for conference room within 25 m² and supports within 10 attendees
- Built-in 4 high-sensitivity microphones 360-degree pick-up, best gather cover 4m, and the maximum can support 5~8m
- Support 2.4G wireless transmission, doesn't need any cable connection. Support Bluetooth connection via Bluetooth adapters. Achieve speakerphone conference anywhere and any place.
- Support USB VoIP and suitable for PC, video system, UC communication
- Support line in/out port that allows for external devices to connect to the conference phone. Achieving efficient video and web conferencing
- Support 3.5mm jack for mobile phone call.
- Collaboration: bridge USB VoIP call and Mobile call together very conveniently
- Speaker volume up to 85dB, 16 levels adjustable
- Built-in chargeable battery : 5200mA, talk time 10 hours and stand-by time 90 days.

Technical Parameter

- Audio Technology
 - Acoustic Echo cancellation(AEC)>65dB
 - Echo length cancellation:≥500ms
 - Bidirectional noise compression(NC): <18dB
 - Automatic Direction finding Technology of Intelligent microphone(EMI)
 - Automatic gain control(AGC)
- Audio
 - Microphone frequency response:100Hz-22KHz
 - Speaker frequency response:100Hz-22KHz
 - Microphone sound-pickup radius: 4 meters, 360 degrees full rang
 - Speaker volume: 85dB at the most
- Network Interface
 - One type-B ,One RJ45 interface
 - One Line IN/OUT port
- Compatibility
 - Windows/Andriod/iOS /Linux
