The VPC 545 projector ceiling mount fits virtually all projectors weighing up to 10 kg. It has a tilt, turn and roll function.

## VPC 545 Projector ceiling mount

The metal arms are adjustable and fit virtually all projectors equipped with screw connection. Using the handy click in/out system, it is easy to attach or remove the projector, for instance for service purposes. Whether it be for presentations, or for watching movies, this universal projector mount will come in very useful. It avoids the necessity of finding a table or temporary support for the projector.

#### **Features**

- Tilt and roll functions guarantee optimal viewing position
- · Easy mounting
- Universal mounting frame
